Profile

I am a Junior Web Developer with a strong passion for web development. Through my personal projects and experiences, I have gained significant expertise in creating functional and diverse websites. I am proficient in HTML5, CSS3, JavaScript, and modern framework React.js. I prioritize writing clean, maintainable code and building responsive designs that enhance user experience.

I enjoy tackling challenges and continuously expanding my skills, including backend technologies like Node.js/Express. I have experience collaborating effectively with designers and developers to deliver high-quality software solutions.

My goal is to grow within a professional team, contribute to projects, and develop towards a senior developer role. I am committed to continuous learning and staying updated with the latest trends in web and mobile development.

Work Experience

8.2022 - 05.2023

UNILAB

- I worked on real projects as a Web developer, creating web applications.
